***Allowable Subject Matter***

Claim 1 is allowed.

The following is an examiner's statement of reasons for allowance: patentability resides, at least in part, in the single function battery having a body unit which has a first end, a second end, a longitudinal axis extending between the first end and the second end, a first side edge, a second side edge, a transverse axis extending between the first side edge and the second side edge, a first face, a second face, ***wherein first and second terminal connectors are located on the first face of said body unit***, the positioning of the terminals would have been unobvious to one of ordinary skill in the art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Puppo 6,137,396, Alexander 5,575,682, Leffingwell 4,147,838 and Gault 6,166,519 were cite for similar batteries.
